REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not disclose the combination of the cellulose, chitin or polysaccharide in dispersion form using an organic solvent. Further, microfibrillar and microcapsule form are not found in such a dispersion. The art cited by the PCT office is represents the closest prior art and discloses a dispersion of microcellulose in water, not an organic solvent. That office concurs that no prior art discloses the combination claimed in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
